

.....

**THE FUTURE OF
MANUFACTURING IS
RIGHT HERE. RIGHT NOW.**

.....

ARE YOU READY TO JOIN THE **MANUFACTURING RESURGENCE** IN WESTERN NEW YORK?

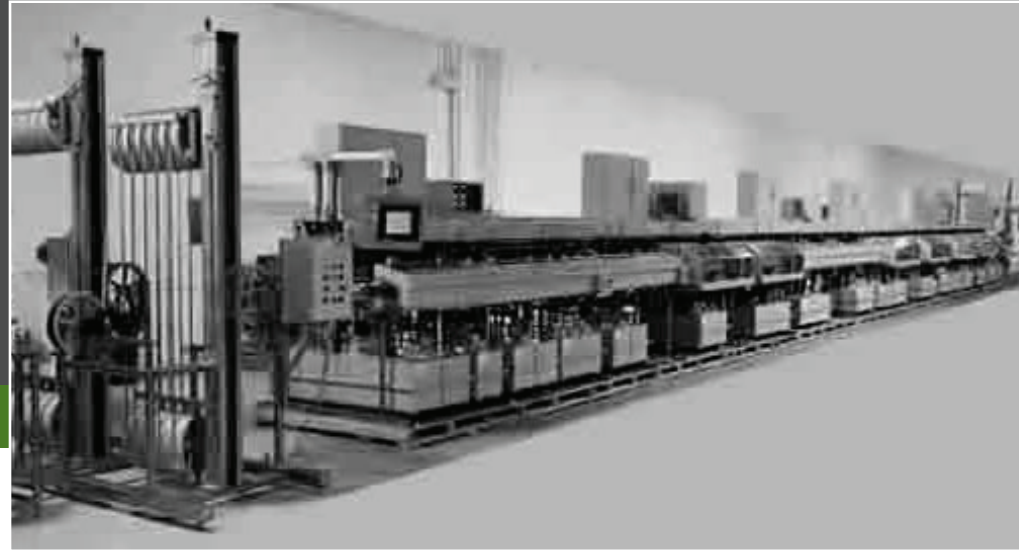

.....

Precious Plate is a manufacturing company based in Western New York with a rich history of over 50 years. The company is built on a foundation of experienced, long-tenured employees who possess invaluable knowledge in the field. These legacy employees are committed to mentoring and guiding new hires, creating a supportive environment for career growth.

Precious Plate plays a crucial role in Western New York's manufacturing resurgence by specializing in precision stamping and electroplating. The tiny, yet essential, components they produce are used in a variety of critical applications, including automotive airbags, and NASA's Mars Rover. This work is at the heart of the region's industrial comeback, as the company's commitment to quality and innovation helps propel the local economy forward.

Joining Precious Plate offers a path to a long-lasting and purposeful career in mission-critical industries. As technology advances in the aerospace, defense, and energy sectors, the demand for the company's precise components is expected to grow. You can launch your career and become a skilled professional, contributing to groundbreaking projects that are shaping our future.

JOIN THE MANUFACTURING RESURGENCE

At Precious Plate, we are not just a company; we are a team of skilled tradespeople building the future. We know that entering a new field can be intimidating, which is why we've built our foundation on mentorship. Our long-tenured pros are here to teach you everything they know about precision stamping and electroplating. This isn't about watching a video or reading a manual; it's about learning a trade directly from the experts, getting the kind of hands-on experience you can't find anywhere else. You'll gain skills and confidence, transforming from a new hire into a master of your craft with a clear path to advance.

YOUR WORK WILL POWER THE FUTURE

Forget everything you thought you knew about manufacturing. At Precious Plate, the work we do is anything but boring. We create tiny, essential components that are used in life-saving automotive applications and even on the Mars Rover. Every single part you make has a critical purpose. This connection to groundbreaking projects in aerospace, defense, and energy instills in us a profound sense of pride. You'll be able to tell your friends and family that your work is helping to save lives or explore another planet. Your efforts will have a direct and profound impact, making this feel less like a job and more like a calling.

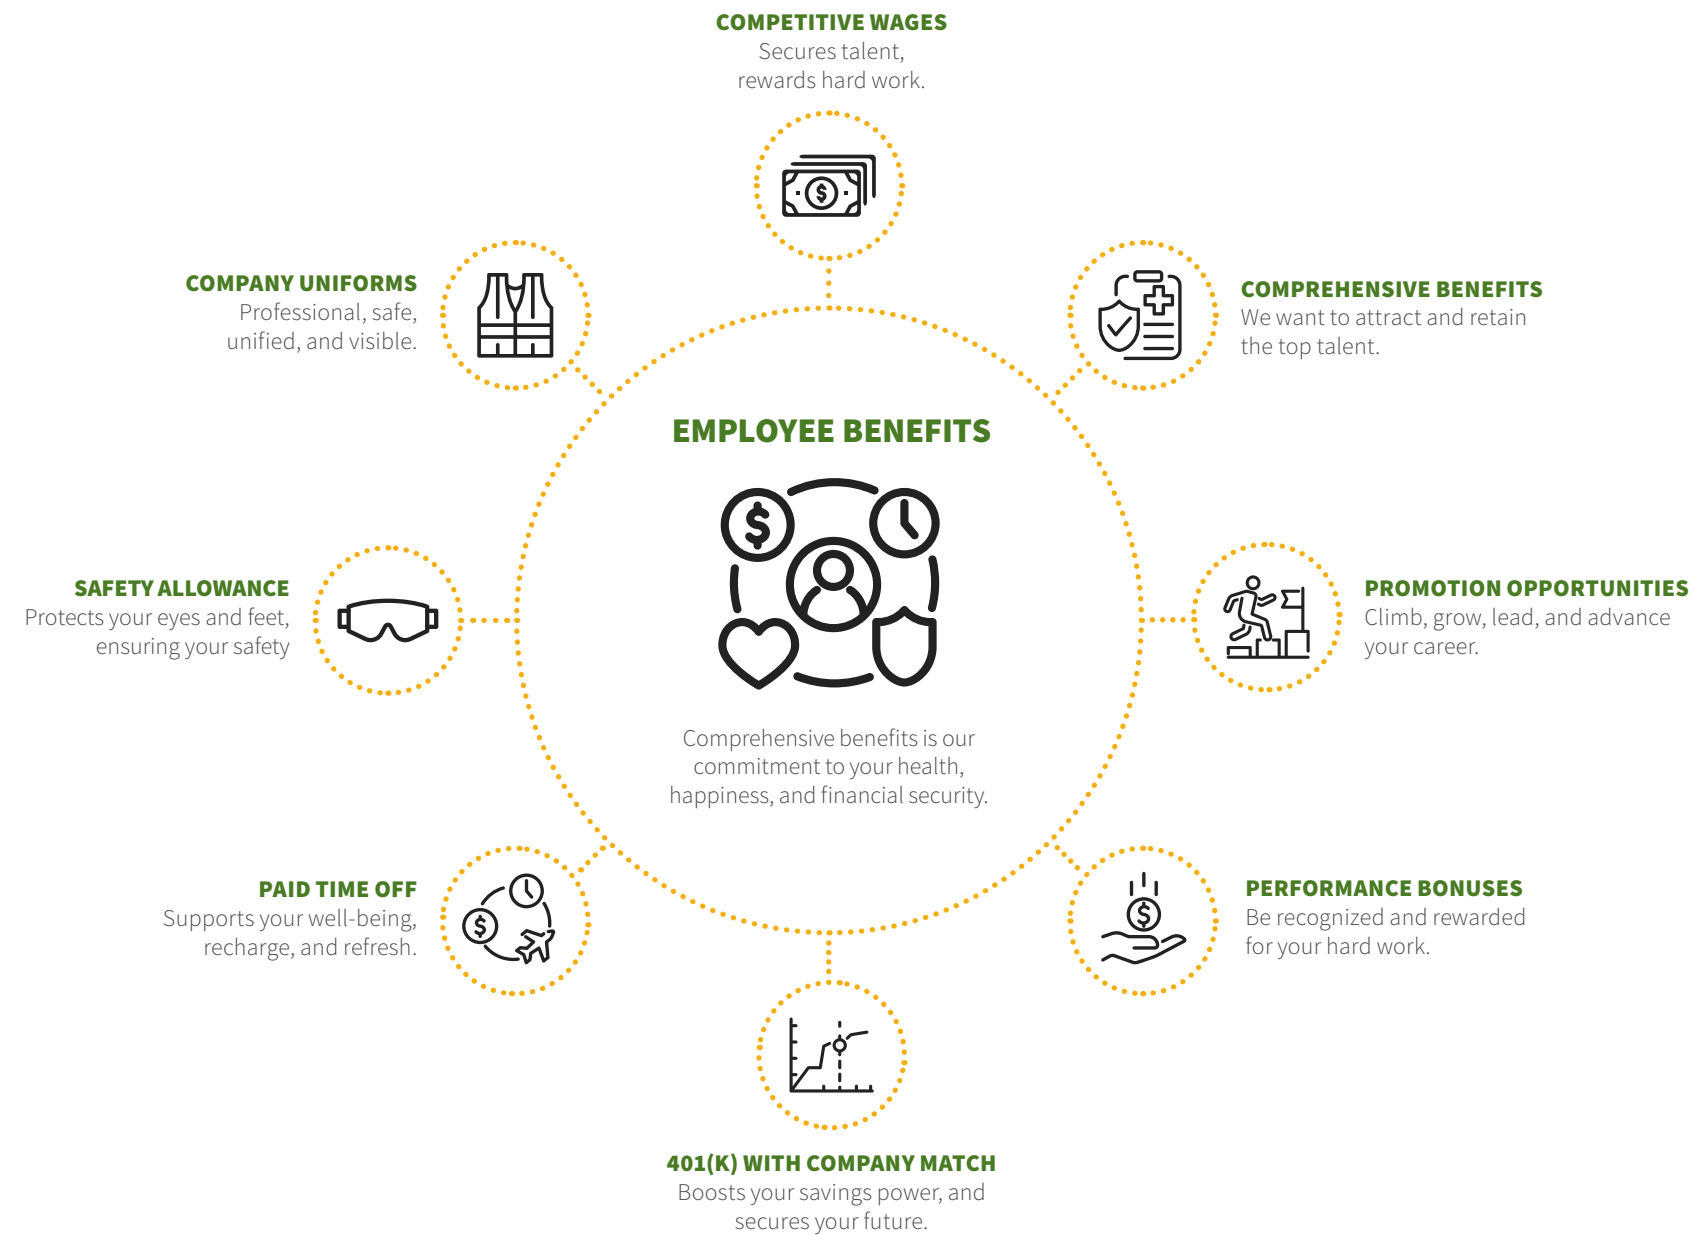

BE A PART OF SOMETHING BIGGER

Ready to be a part of a comeback story? We're at the heart of the manufacturing resurgence right here in Western New York. By joining us, you're not just starting a job; you're becoming a key player in revitalizing a vital industry and helping our local economy thrive. You'll feel a sense of community and pride knowing that your hard work contributes directly to a stronger region. If you value being part of a positive change, this is your chance to make a tangible difference in your own backyard.

START A CAREER THAT LASTS

Are you worried about finding a stable career? Our focus on mission-critical industries, such as aerospace and defense, means the demand for our precise components will continue to grow. This focus provides a clear path to a long-lasting career with skills that will always be in demand. Our work is at the cutting edge of technology, which means you'll constantly be learning and challenged. Precious Plate offers recent graduates a career that is secure, challenging, and meaningful.

A FUTURE BUILT ON DEMAND AND SKILL

The opportunity to thrive in the future of manufacturing is rooted in a simple principle: demand. Precious Plate’s specialization in mission-critical components means its products are indispensable to industries poised for long-term growth. When you learn your trade here, you’re not just learning a skill; you’re learning one that is at the core of these growing industries. This ensures your expertise remains relevant and highly sought after. The company’s focus on the cutting edge of technology means your career will evolve with the industry, safeguarding your future against automation and economic shifts. Your personal growth and financial stability are directly tied to the success of a company that is quite literally shaping the future of manufacturing, not just in Western New York, but on a national and even global scale.

“When you join the team at Precious Plate, you’re becoming a key player in the manufacturing resurgence in the Western New York region. Our growth secures your career and ensures your skills are always in demand. You’re not just working for a company—you’re helping to build a stronger community and a lasting impact.”
